

November 15, 2022

In an increasingly self-oriented society, exacerbated by the experiences of pandemic isolation, kindness has collapsed, risking becoming a legacy of times gone by. **Peace and mutual trust are becoming more important than ever**, and any action that can work in this direction is our human responsibility.

Each year, on November the 13, people across the globe celebrate World Kindness Day, which promotes the importance of **being kind to each other and to the world**. This project is a unique opportunity to build awareness around this annual appointment, by unifying design communities and celebrating World Kindness Day (and all the other days) in a more inspiring way.

SO, WHAT IS FIGHT FOR KINDNESS?

Fight for kindness is a project designed to spread kindness and courtesy in an unexpected and powerful way. The entire creative community is invited to contribute with a **typographic message** about **courage, respect, inclusivity, care, tolerance, integrity, responsibility and environmental protection**.

To participate, designers need to submit **an artwork that contains an inspirational headline/message** for a more empathic, inclusive and positive world. Designers can apply with more than one artwork, using the [application form](#) for each submission.
